rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

The usually unshakeable editor of the P. S. indicate some apprehension of disaster to the earth and other planets of this system because of their lining up from the sun. Prof. Porta has 'skeered' more than one Campbellite with his sinister predictions; in fact, a number of churchmen of differing faiths, are inclined to take Prof. Porta's view of the unusual position of the planets of his solar system, seriously and various methods for escape from the cataclysm are being considered. So far as we are concerned, if our guardian Angel does not pick us up in the general topple and waft us clear of collisions, red-hotness and oblivion during all the years to come, we are goners, having no knowledge of bi-plane, dirigibles or fockers. Where our esteemed contemporaries got their hunch before the sensational article by Prof. Porta appeared in print, we cannot guess unless Jim Doxey, who fortells many things in advance, as it were, tipped them off, but it has been known for several weeks that instead of a motor car, the sen. edtr. of the P. S. has had his mind made up to secure an airplane of some long winded description. Is this evidence not sufficient to indicate beyond per that advance information was had concerning the probable knock out of Mother Earth and a future abode beyond the bleak distance of Jupiter or even Uranus must be sought? Editorial courtesy should have prompted a pointer on how to get through space if catapulted unexpectedly thru other forces than flu, no means of escape from which are at hand or on hip and concerning which all advice has been rendered nil. But get up early, say by 6:30 and gaze on the line up of Venus, Jupiter, Saturn and Mars with earth slightly out of line but sure to suffer if Porta is right, then figure on the future, solemnly.

Correct Me Club

The Sophomore English class of the Keytesville High school, being anxious to acquire the habit of speaking correctly and putting into use rules for correct grammatical construction they have learned, have organized a "Correct Me Club." As each member makes an error he is given a pin with the words

"Correct Me" printed on it, and must wear this pin until he corrects some other member. He may then require the one he corrected to wear the pin until he, in turn, correct another member and may dispose of it in that manner. They are given credit for the length of time they spend each week without having to wear the pin.
